You have now provided your authorized representative with delegated access to MBOS. Your delegate will be able to access MTO and manage your business account online. As a reminder, you need to add representatives through the following forms: "Authorized Representative Declaration – Form 151" or "Payroll Service Provider – Form 3683" for the representative to be able to **contact** the Department of Treasury (using phone, email, etc.) on behalf of your business. To ensure fast and accurate results, you may do this online through your MTO account.
